Brand Development

This guide is your go-to resource for using Spatial Height Technologies brand elements consistently and effectively.

A lot of thought and effort went into creating our visual identity. We considered our customers, competitors, industry, community, and environment. We also thought about what makes us unique, how we can grow, and how we connect the past with the future.

This guide ensures that every interaction with the SHT brand stays true to our vision, helping us build a strong and recognizable presence in the industry.

Typography Hierarchy

The background features a dark blue field with a pattern of lighter blue and teal geometric shapes. These shapes include circles, squares, and interconnected lines, creating a molecular or network-like structure. The shapes are distributed across the entire frame, with some appearing more prominent than others.

About The Brand

Introduction

Spatial Heights Technologies is a recently established geospatial solutions firm dedicated to advancing innovation in geographic information systems (GIS). We focus on delivering cutting-edge services, including geospatial solutions development, capacity building for organizations, surveying and mapping, and data collection and management and many more. Headquartered in Nigeria, Spatial Heights aims to empower clients across various sectors by leveraging GIS technology to solve complex challenges, foster sustainable development, and drive data-driven decision-making. With a commitment to excellence and collaboration, the firm is poised to make a significant impact in the geospatial industry, particularly in West Africa.

Mission

To empower organizations with intelligent geospatial solutions that drive innovation, enhance decision-making, and unlock the power of location-based insights across Africa.

Vision

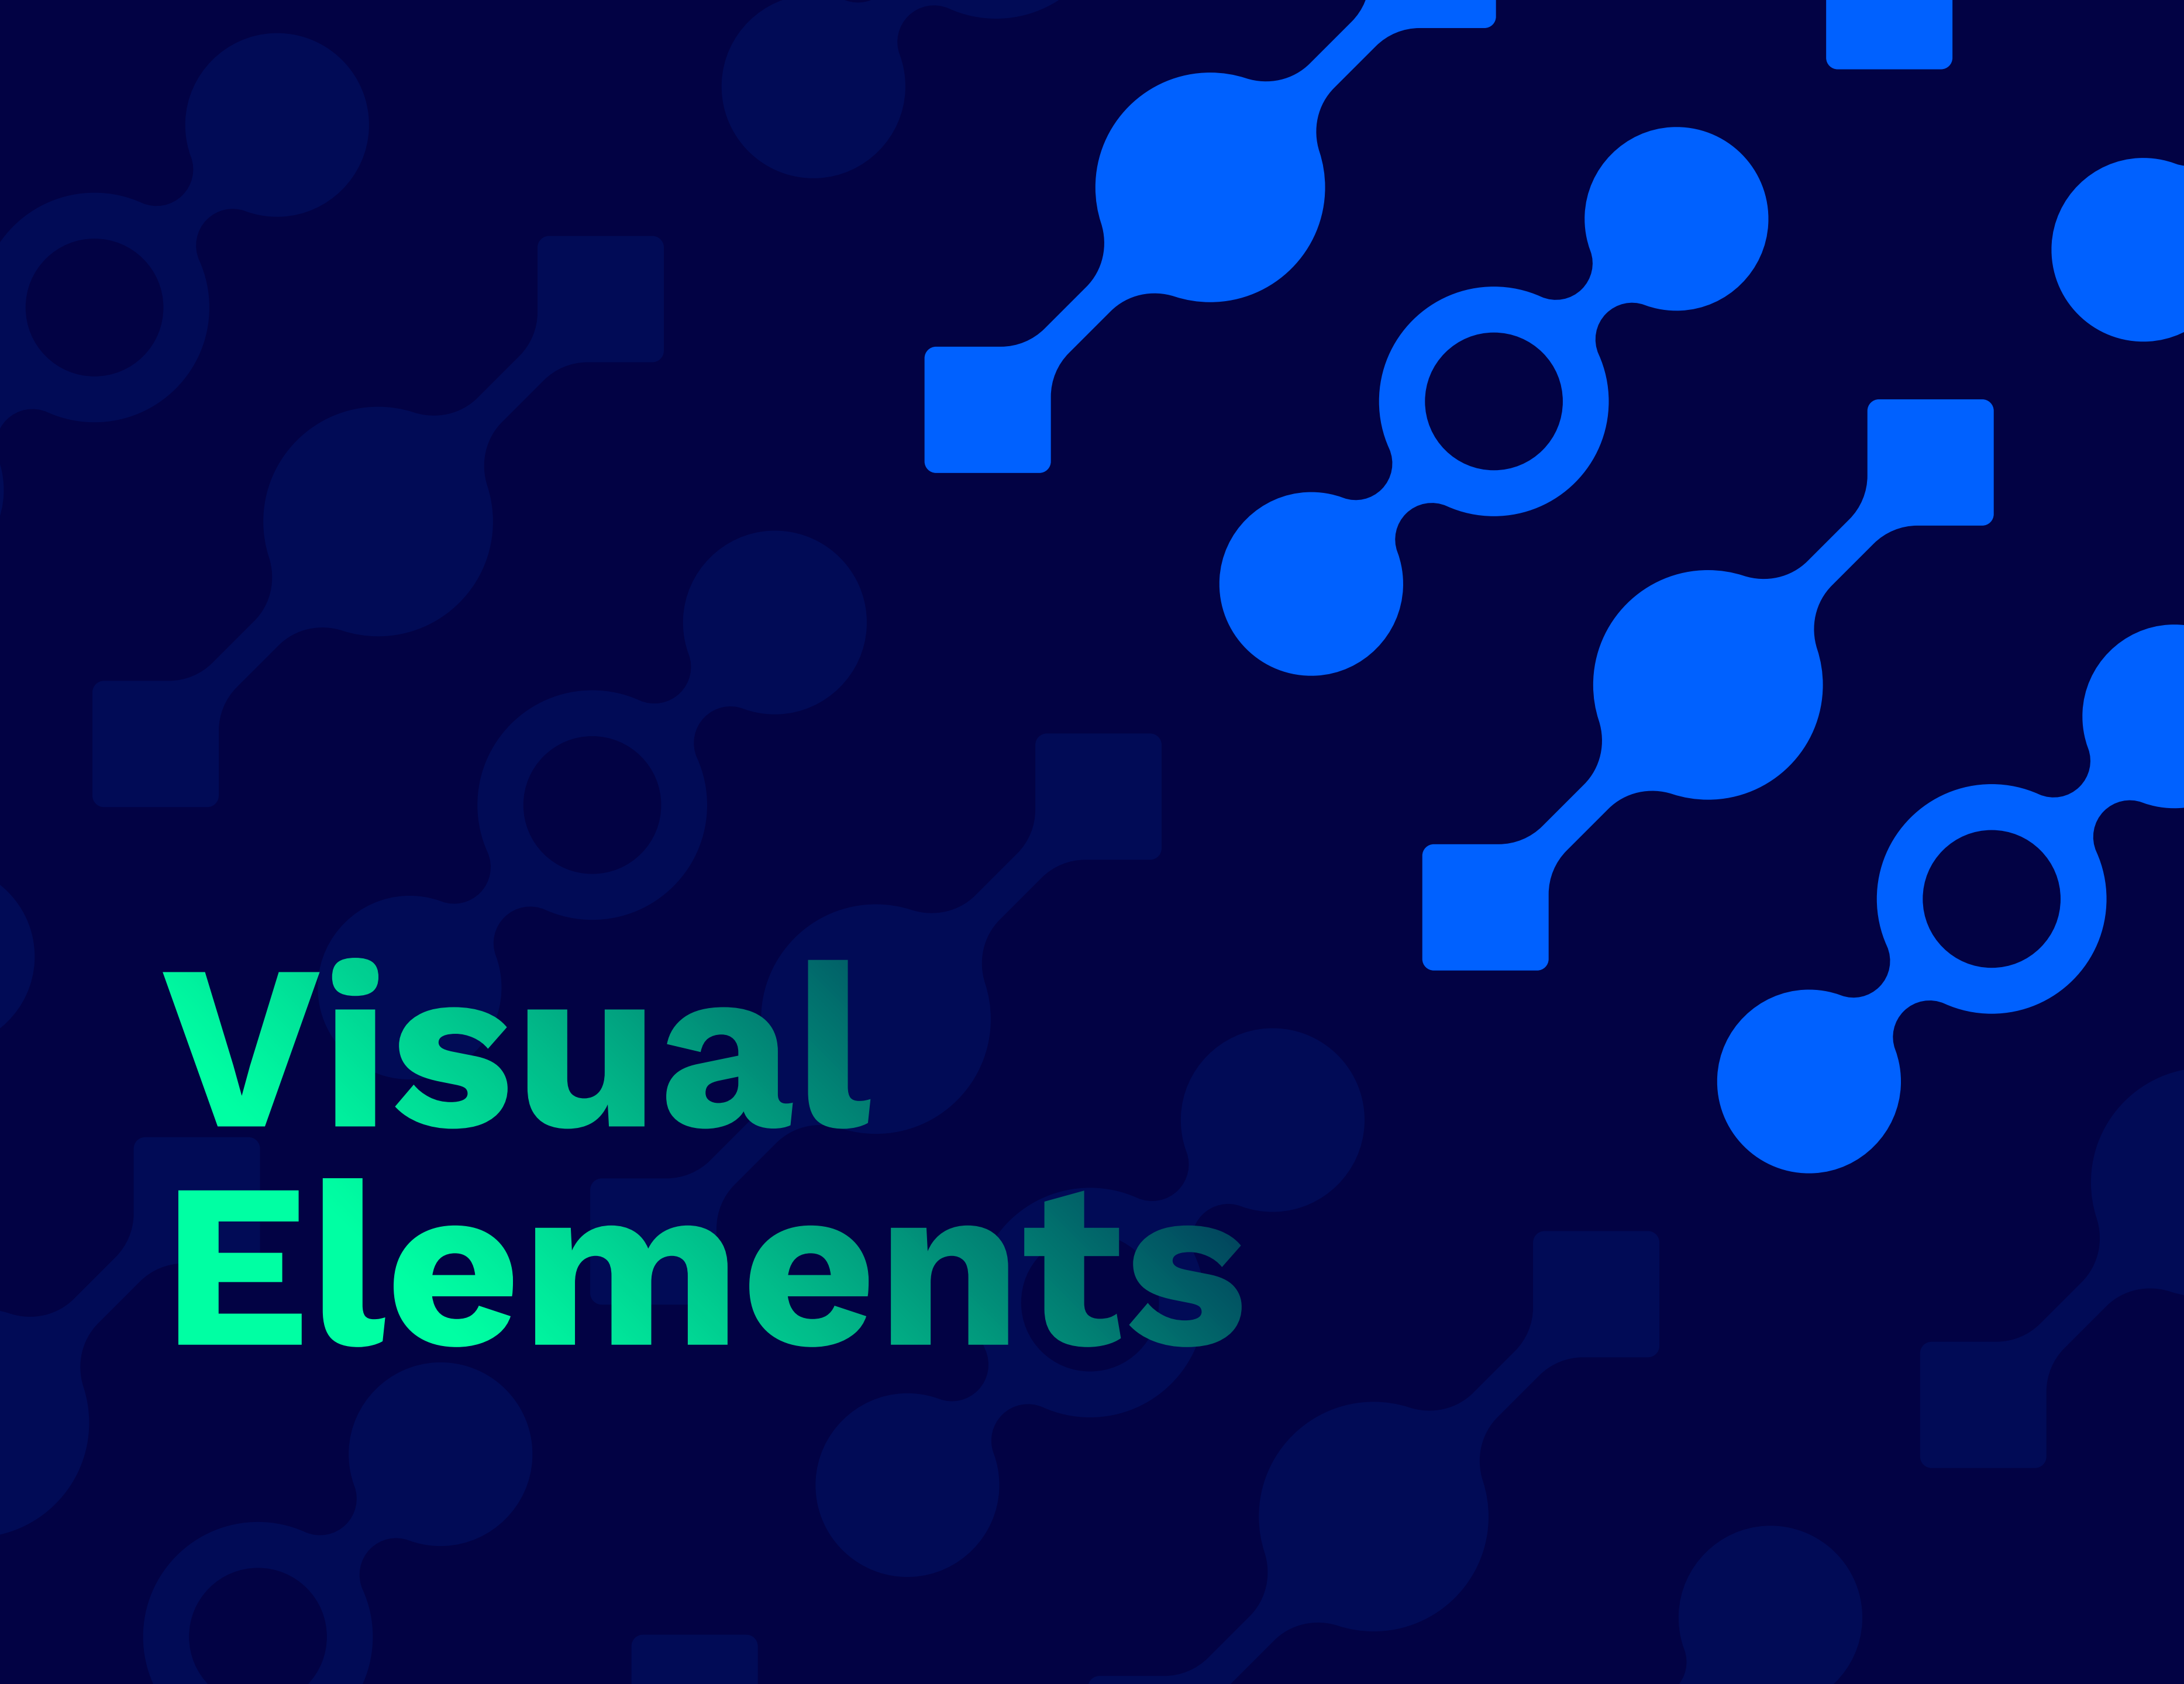

To become Africa's leading geospatial company, recognized for driving innovation and enabling smarter, data-informed decisions.

What Sets Us Apart

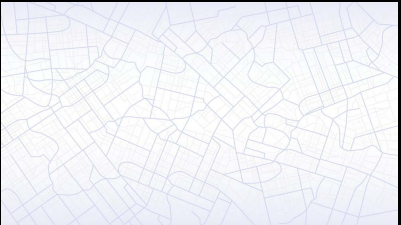

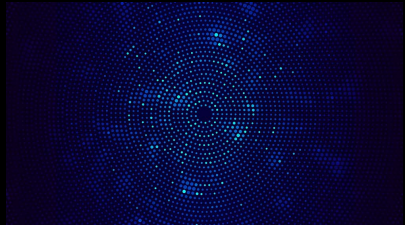

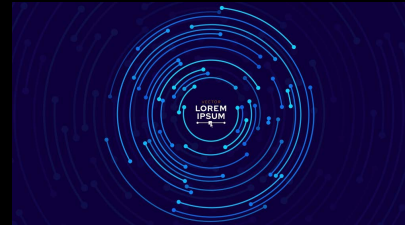

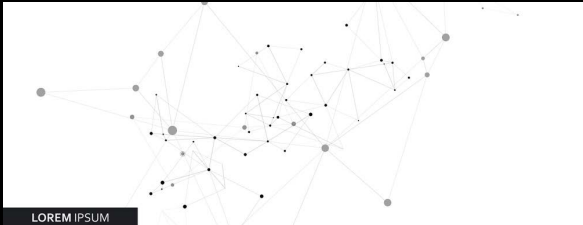

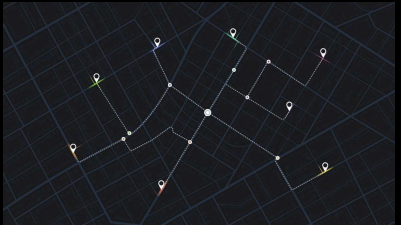

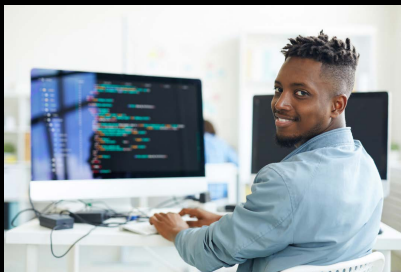

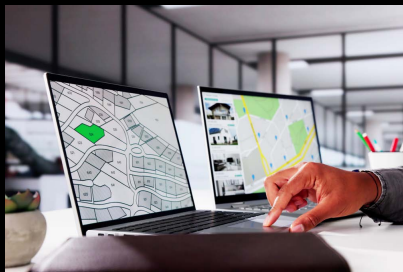

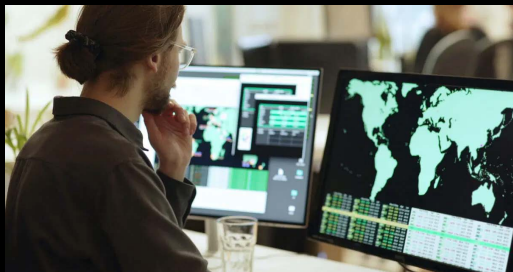

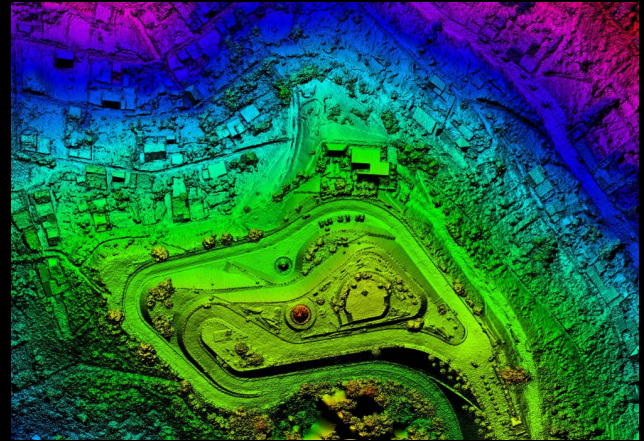

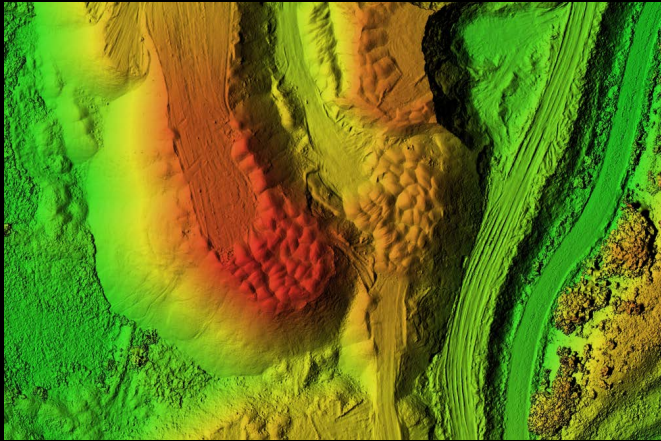

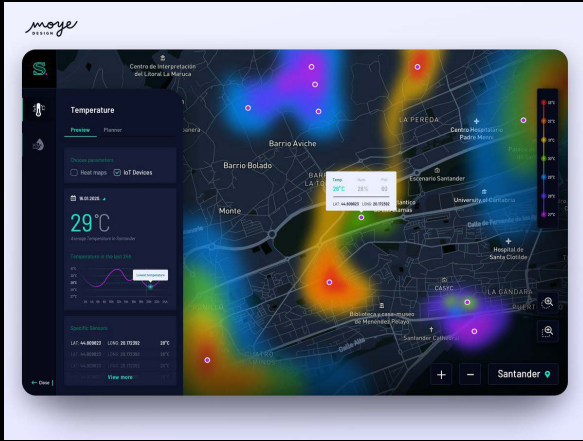

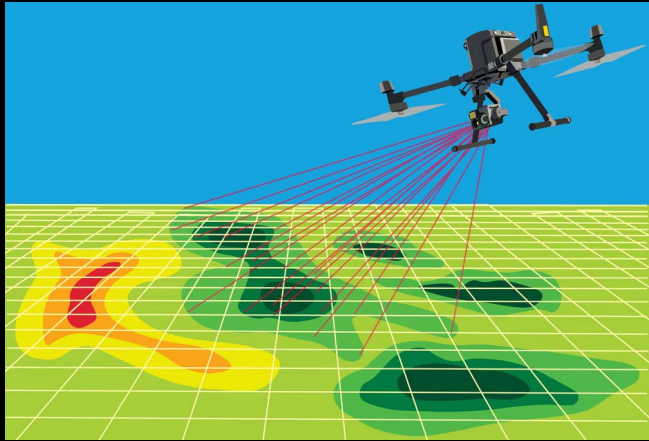

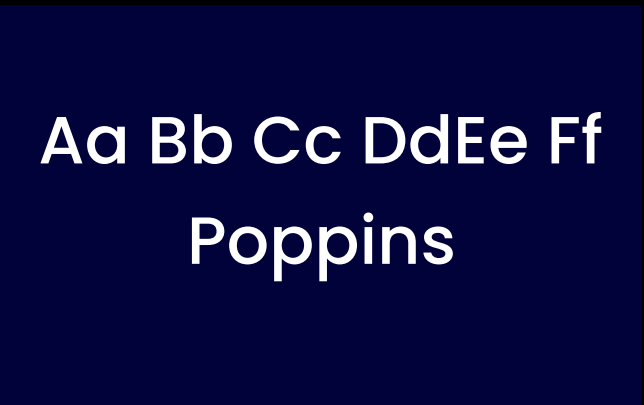

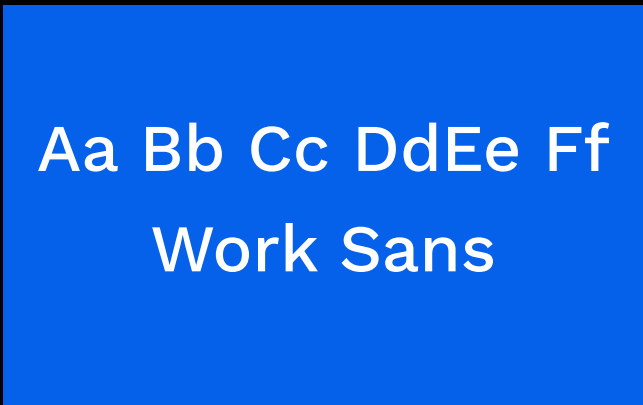

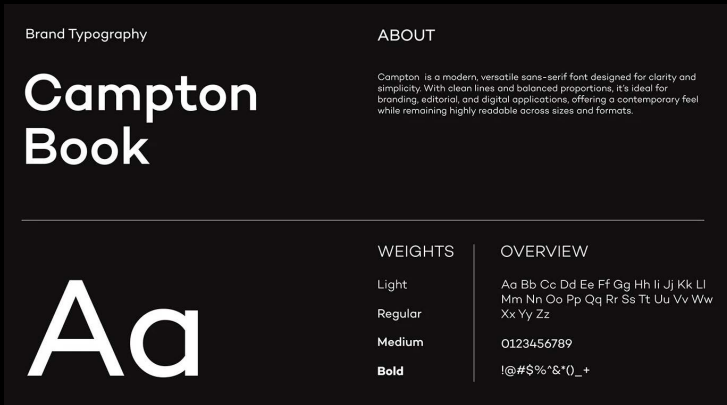

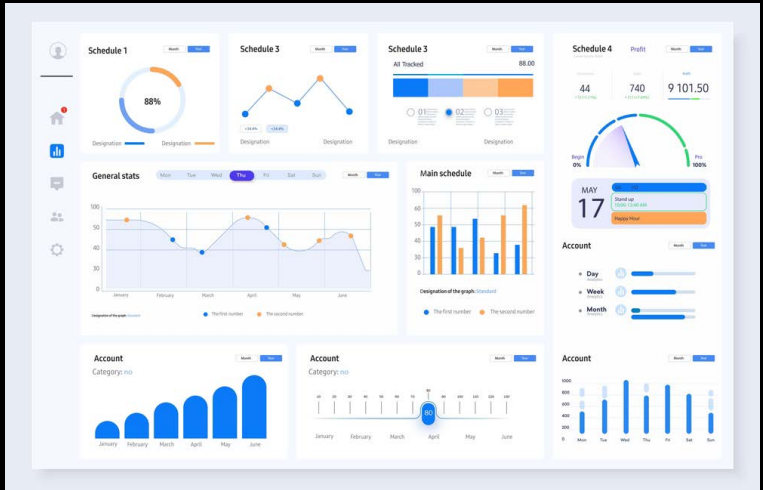

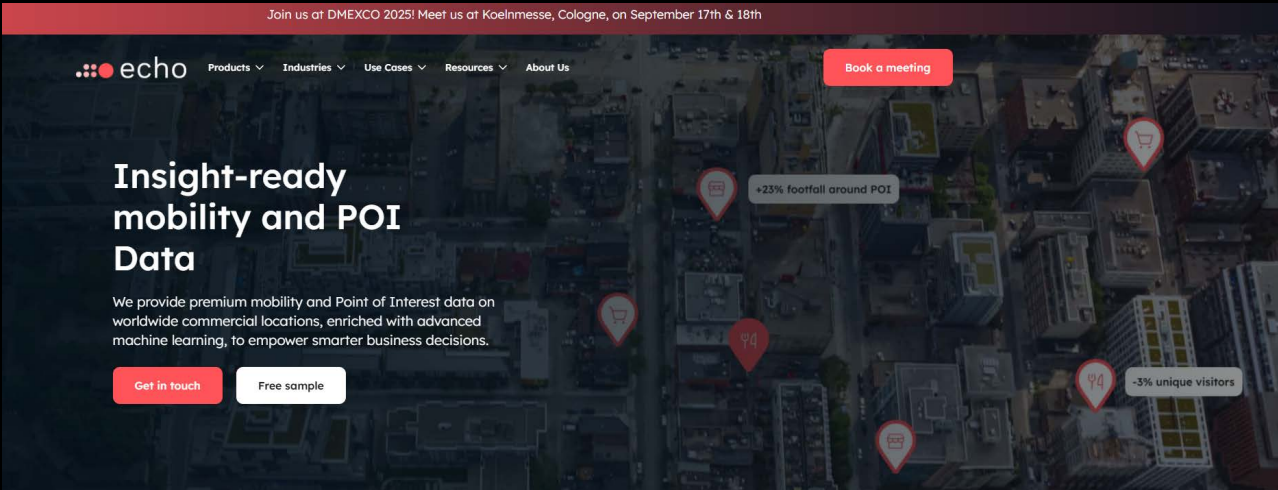

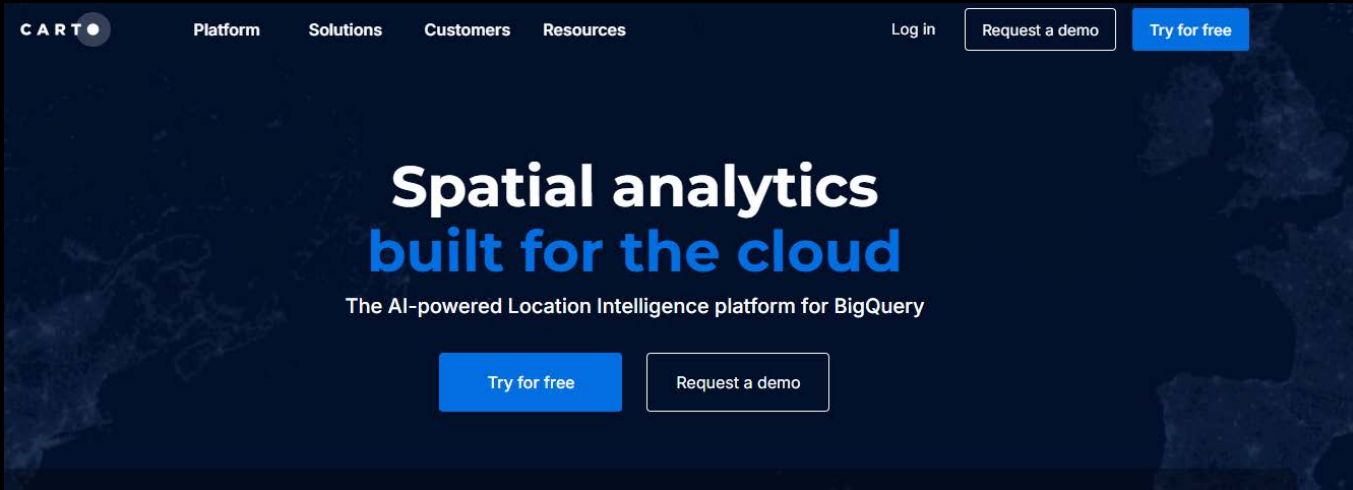

At Spatial Heights Technologies, we combine a deep understanding of the African landscape with global best practices. What truly differentiates us is our commitment beyond project delivery, we walk side by side with our clients, offering ongoing support to ensure long-term value and successful technology adoption. We don't just provide solutions; we build lasting partnerships.

Brand Personality

Tech-savy	Global	Traditional	
Young	Reliable	Innovative	Classic

The background features a dark blue field with a pattern of lighter blue and teal geometric shapes. These include circles, squares, and interconnected lines that form a network-like structure, reminiscent of a molecular or data network. The shapes are distributed across the entire frame, with some appearing more prominent than others.

Visual Elements

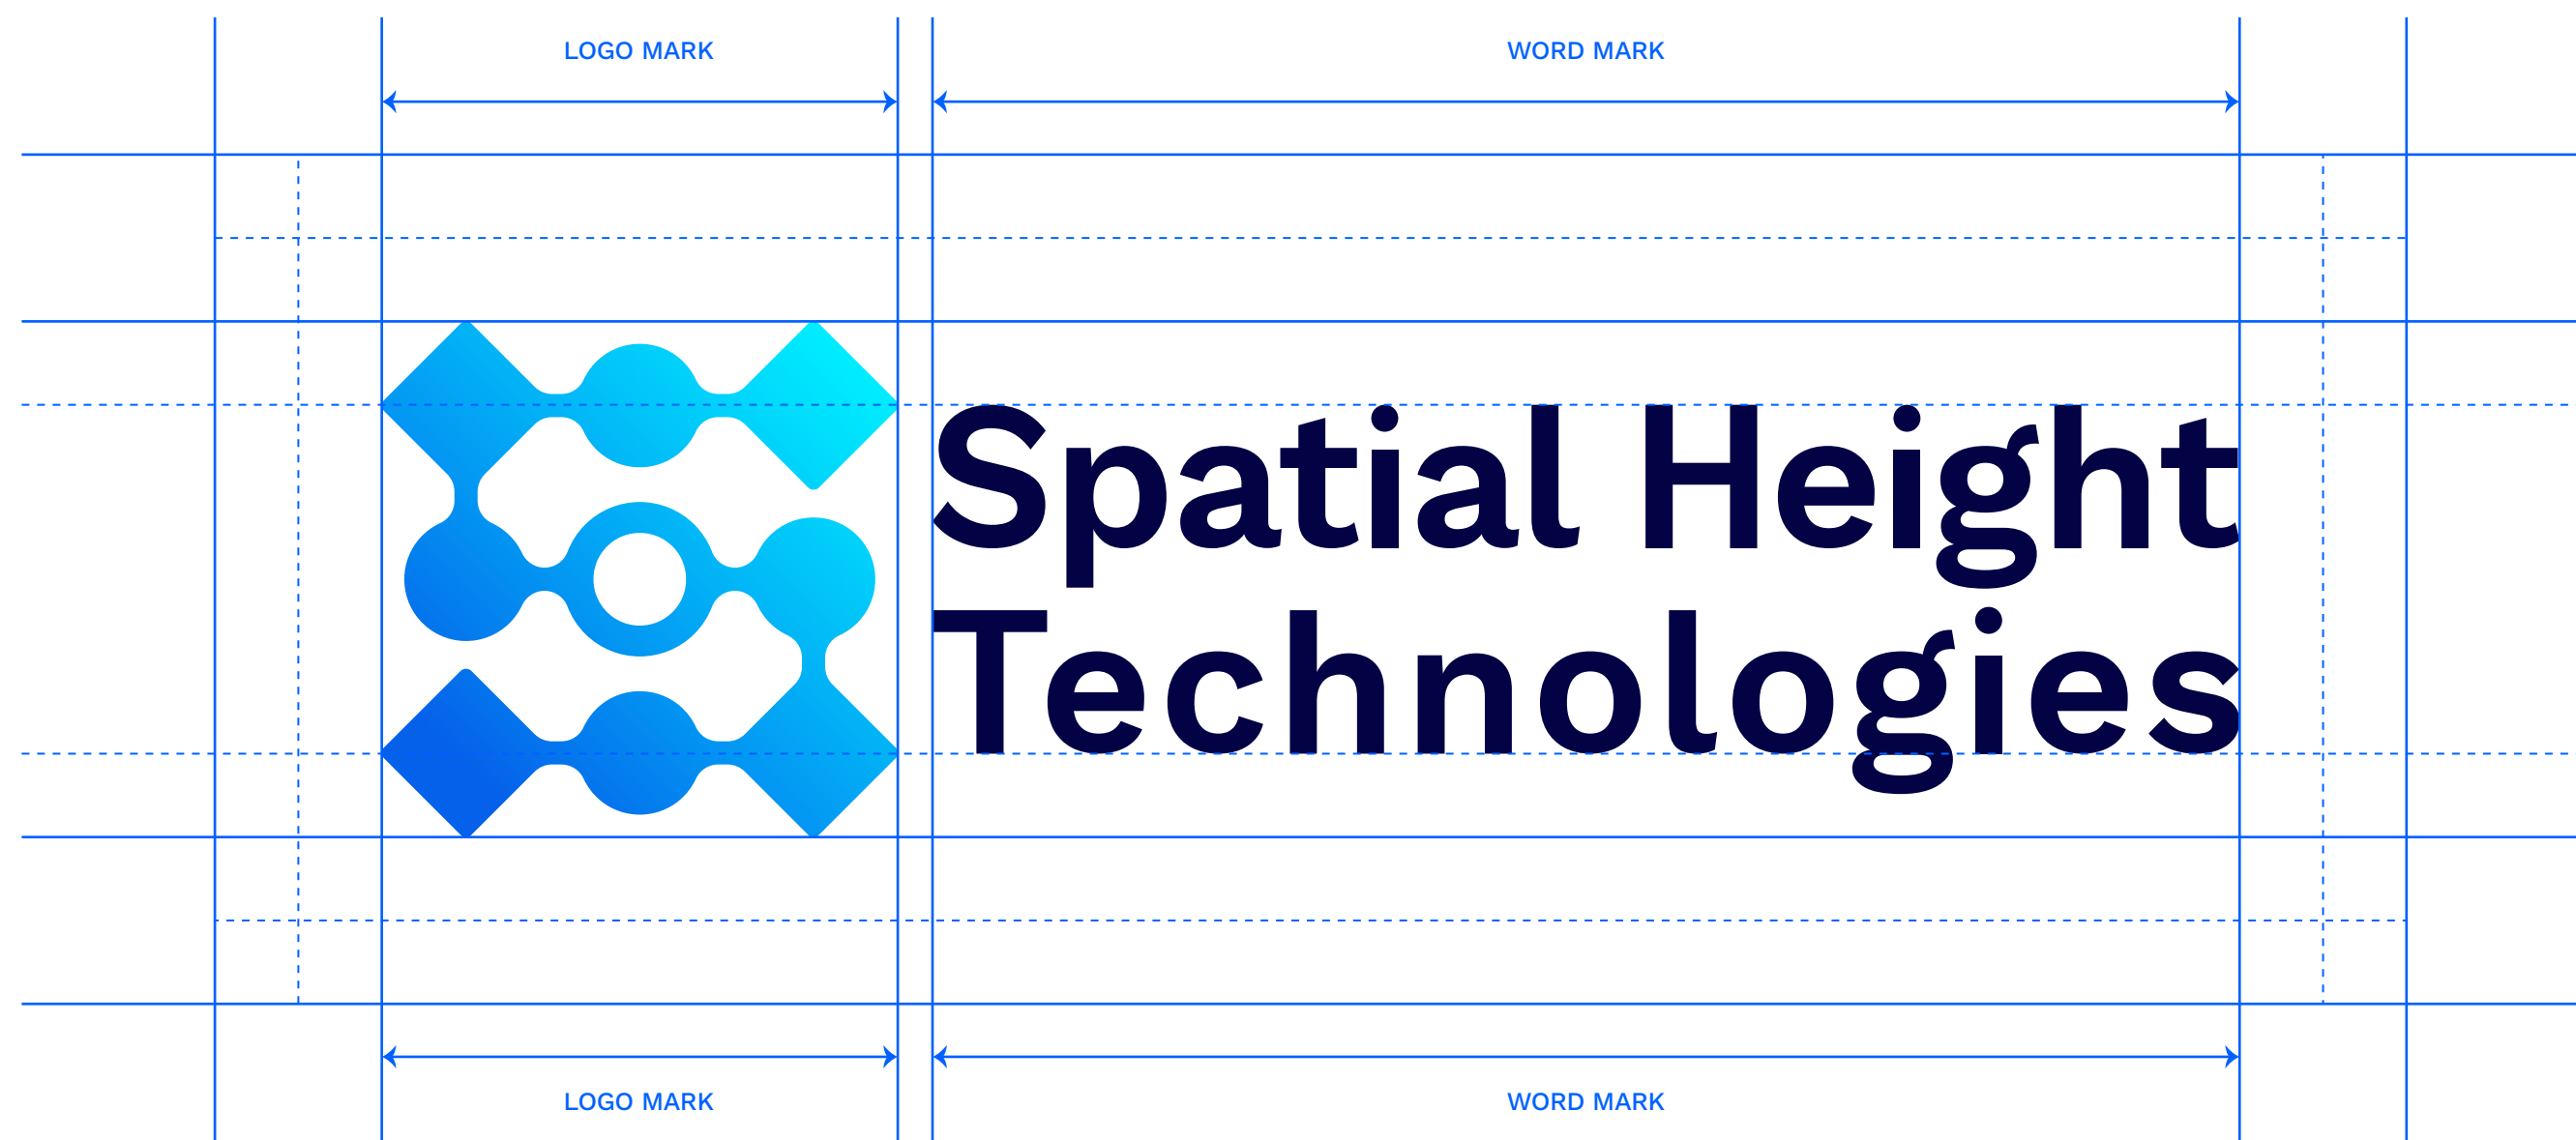

The Logo

The Spatial Height Technologies logo consist of two major parts.

The Logo Mark and the Logo Type. The ultimate brand Identity aim is to unite the logo type and distinctive logo mark in its identity.

This means that Both elements must complement each other, while also having the ability to stand alone if needed.

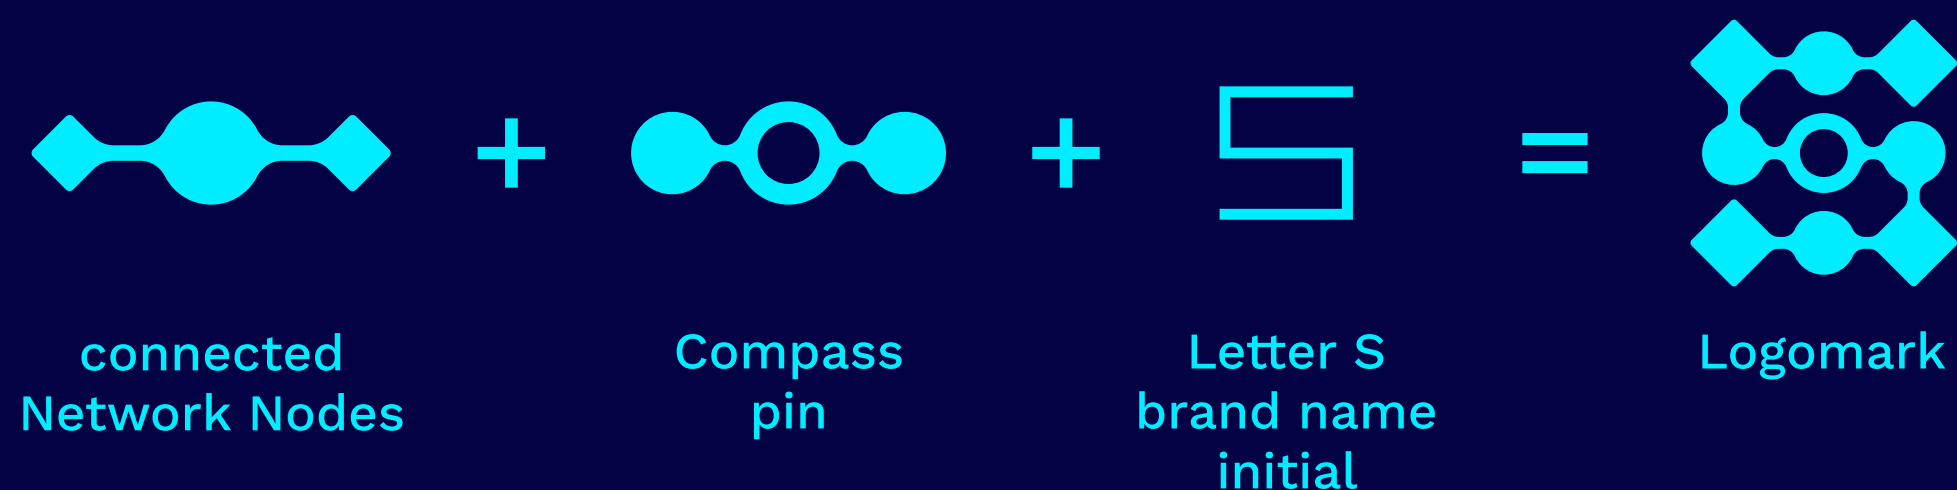

Logo Rationale

The logo brings together **network nodes** arranged in a connected structure, symbolizing the flow and interaction of geospatial data. This abstract representation highlights the brand's ability to capture, process, and integrate spatial information in ways that drive innovation and informed decision-making.

At the center of the composition, a minimalist **compass pin** anchors the design with a strong reference to geospatial science and navigation. This element conveys direction, precision, and clarity; core values that define the brand's role in guiding organizations through the complexities of data and technology.

Together, these elements are crafted into the form of the **letter "S"**, a direct reference to *Spatial Heights*. By uniting these elements, the logo embodies both modern connectivity and timeless geospatial identity. It reflects Spatial Heights Technologies as a forward-looking company that stays rooted in geospatial tradition while enabling seamless data-driven solutions for the future.

Logo Variation

The brand logo can be used in the following variations:

- 1. Primary (Horizontal) Logo
- 2. Secondary (Vertical) logo only
- 3. Icon only
- 4. Alternate logo

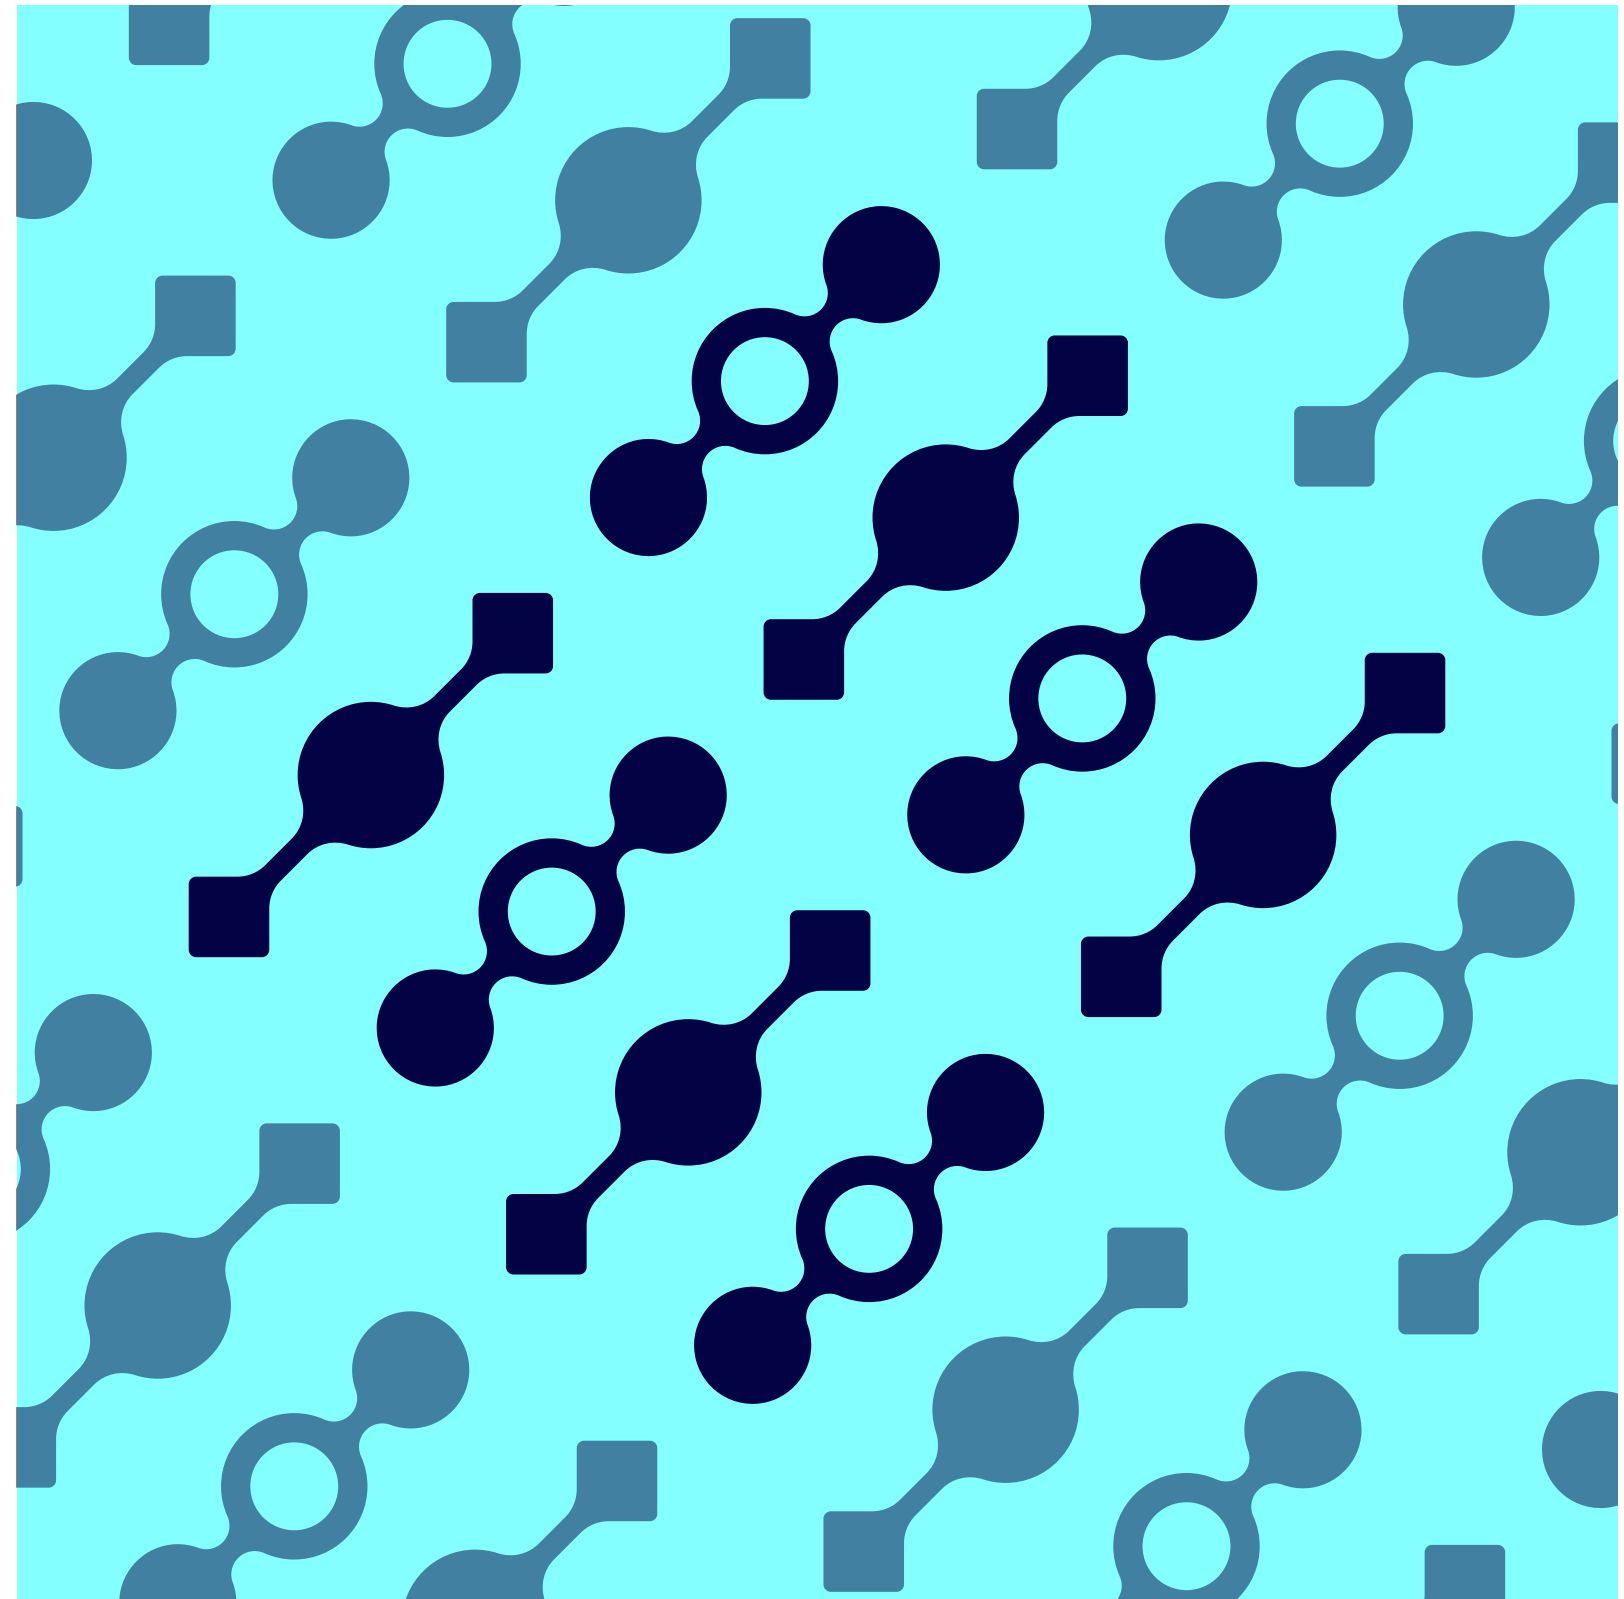

The secondary logo is a vertical version of the brand icon, composed of interconnected circles and diamonds forming a square-like structure. Below the icon, the words "Spatial Height Technologies" are written in a bold, dark blue, sans-serif font, stacked in two lines.		The icon only variation is a blue geometric icon composed of interconnected circles and diamonds forming a square-like structure.
The alternate logo 1 is a dark blue square with rounded corners, containing a white geometric icon composed of interconnected circles and diamonds forming a square-like structure.	The alternate logo 2 is a dark blue circle containing a white geometric icon composed of interconnected circles and diamonds forming a square-like structure.	The alternate logo 3 is a blue geometric icon composed of interconnected circles and diamonds forming a square-like structure, followed by the letters "SHT" in a bold, dark blue, sans-serif font.

Brand Pattern

The brand pattern is derived from re-arranging some elements from the Logo mark.

The brand pattern can make awesome brand visuals. You can also use just one part of the pattern, depending on the design you're going for.

Typography

Hey, Its **Work Sans**
defining the look of SHT

Black	<i>Black Italic</i>
Extrabold	<i>Extrabold Italic</i>
Bold	<i>Bold Italic</i>
Semibold	<i>Semibold Italic</i>
Medium	<i>Medium Italic</i>
Regular	<i>Italic</i>
Light	<i>Light Italic</i>
Extralight	<i>Extralight Italic</i>
Thin	<i>Thin Italic</i>

Uppercase	ABCDEFGHIJKLMNOPQRSTUVWXYZ
Lowercase	abcdefghijklmnopqrstuvwxyz
Number	1234567890
Punctuation	()?!@&.,:;/_-{}“”
Symbols	<>+=-\$#*^%

Typography Hierarchy

Heading: **Work Sans Bold**

Size: 100

Line height: 90% of the Size

Kerning: 0

Subheading: **Work Sans SemiBold**

Size: 60

Line height: 100% of the Size

Kerning: -20

Subheading: Work Sans Regular

Size: 20

Line height: 125% of the Size

Kerning: -20

The typography hierarchy is not fixed but can be taken as a starting point for developing new communication touchpoints.

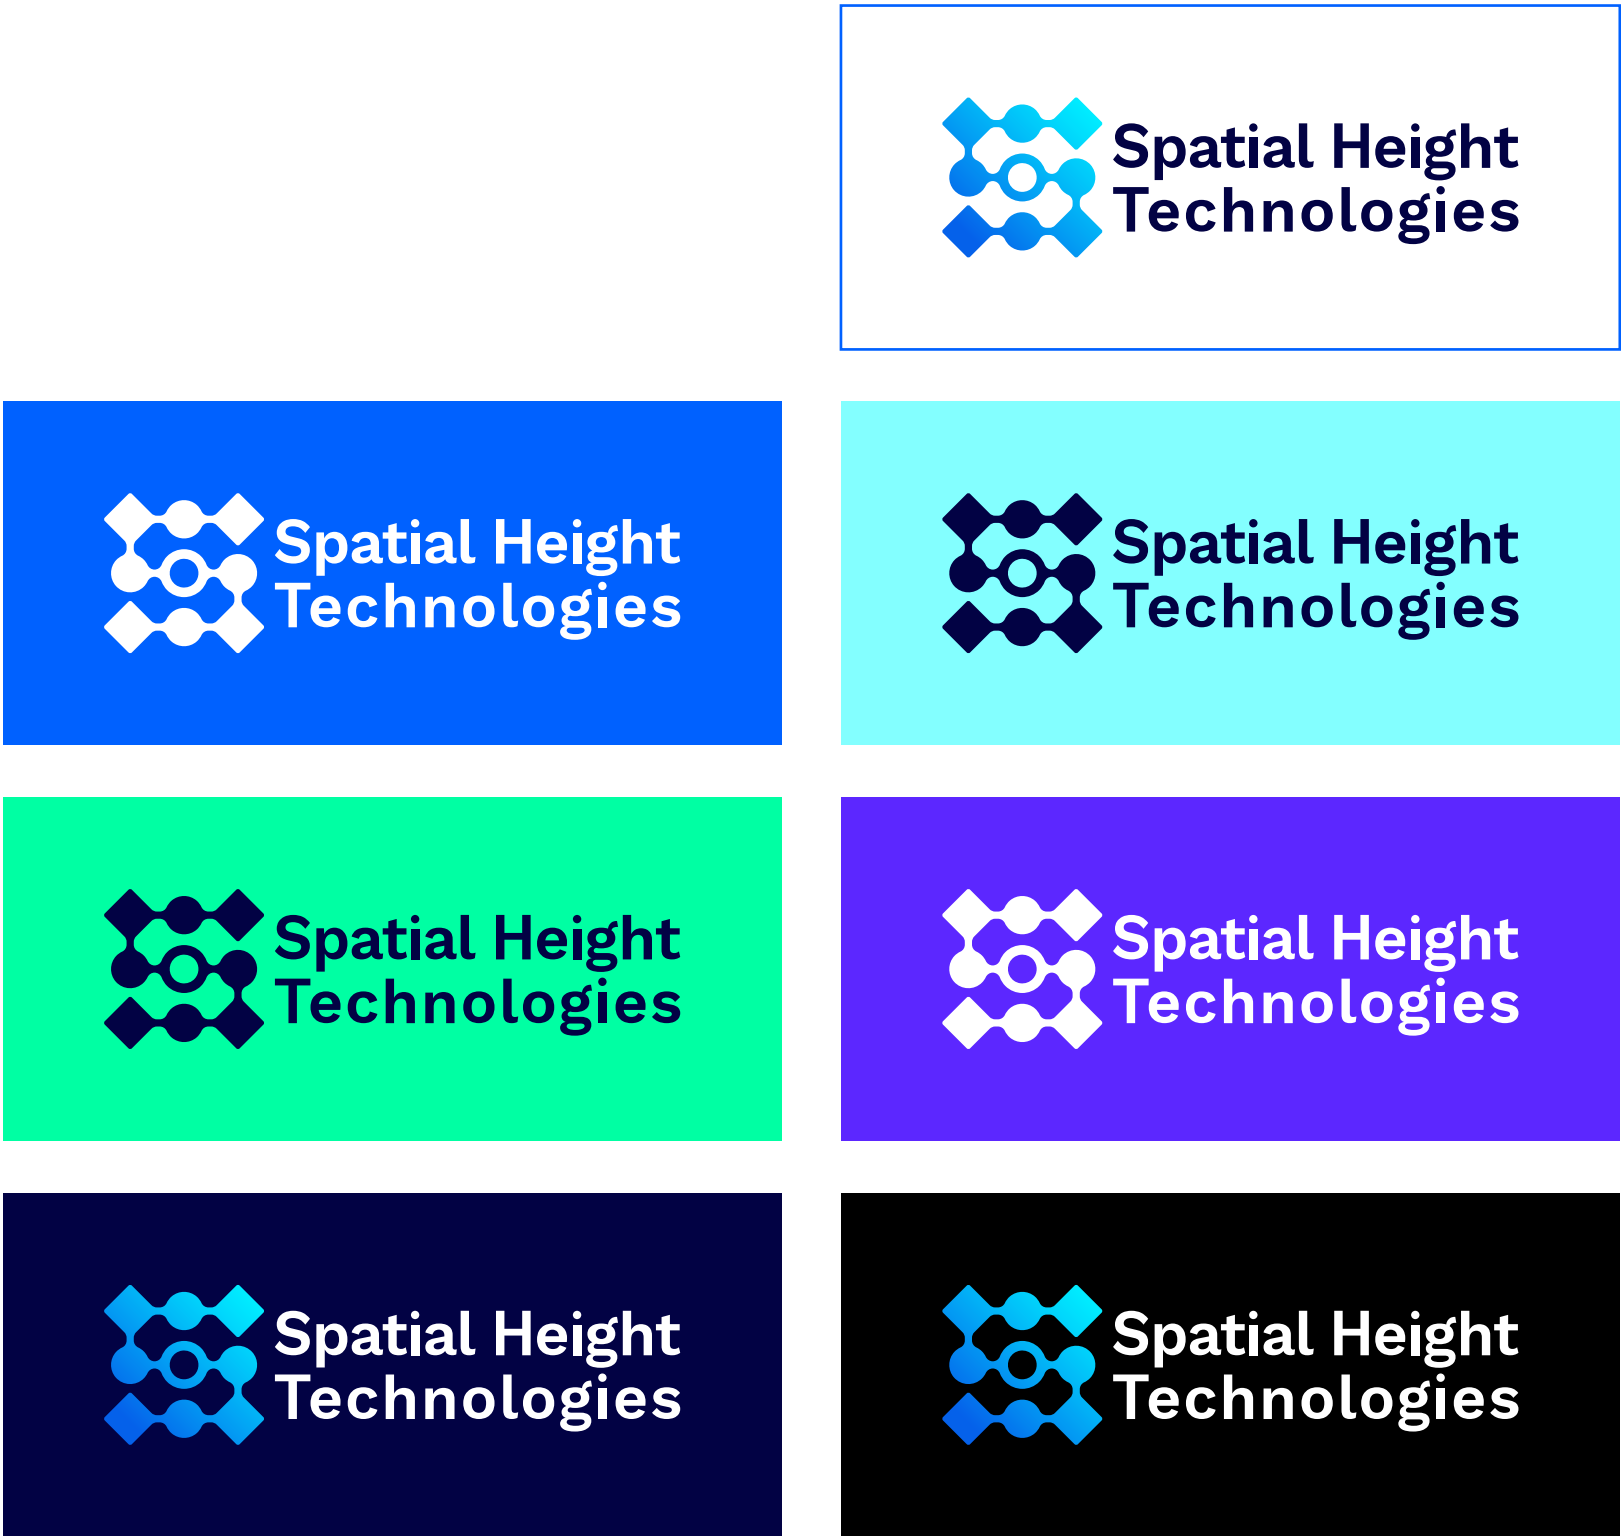

The final font size depends on the type of layout, the goal of the communication touchpoint and the amount of content.

The background features a dark blue field populated with various geometric elements. These include solid blue circles, squares, and lines of varying thicknesses. Some elements are interconnected, forming a network-like structure that suggests molecular or technological themes. The overall aesthetic is modern and abstract.

Regulations

Background

It Should be noted that these broad considerations are the only acceptable usage when placing the logo on backgrounds

Logo Usage Rule

Do not place the logo on colourful backgrounds in it's natural colours instead use the white version

Do not compress or stretch the logo either vertically or horizontally

Do not add shadows to the logo for any reason

Do not rotate or skew the logo for any reason

Do not add transpaency to the logo for any reason

Do not change the logo colours to any other colour except as it has been recomended

Do not add outline or stroke to the logo for any reason

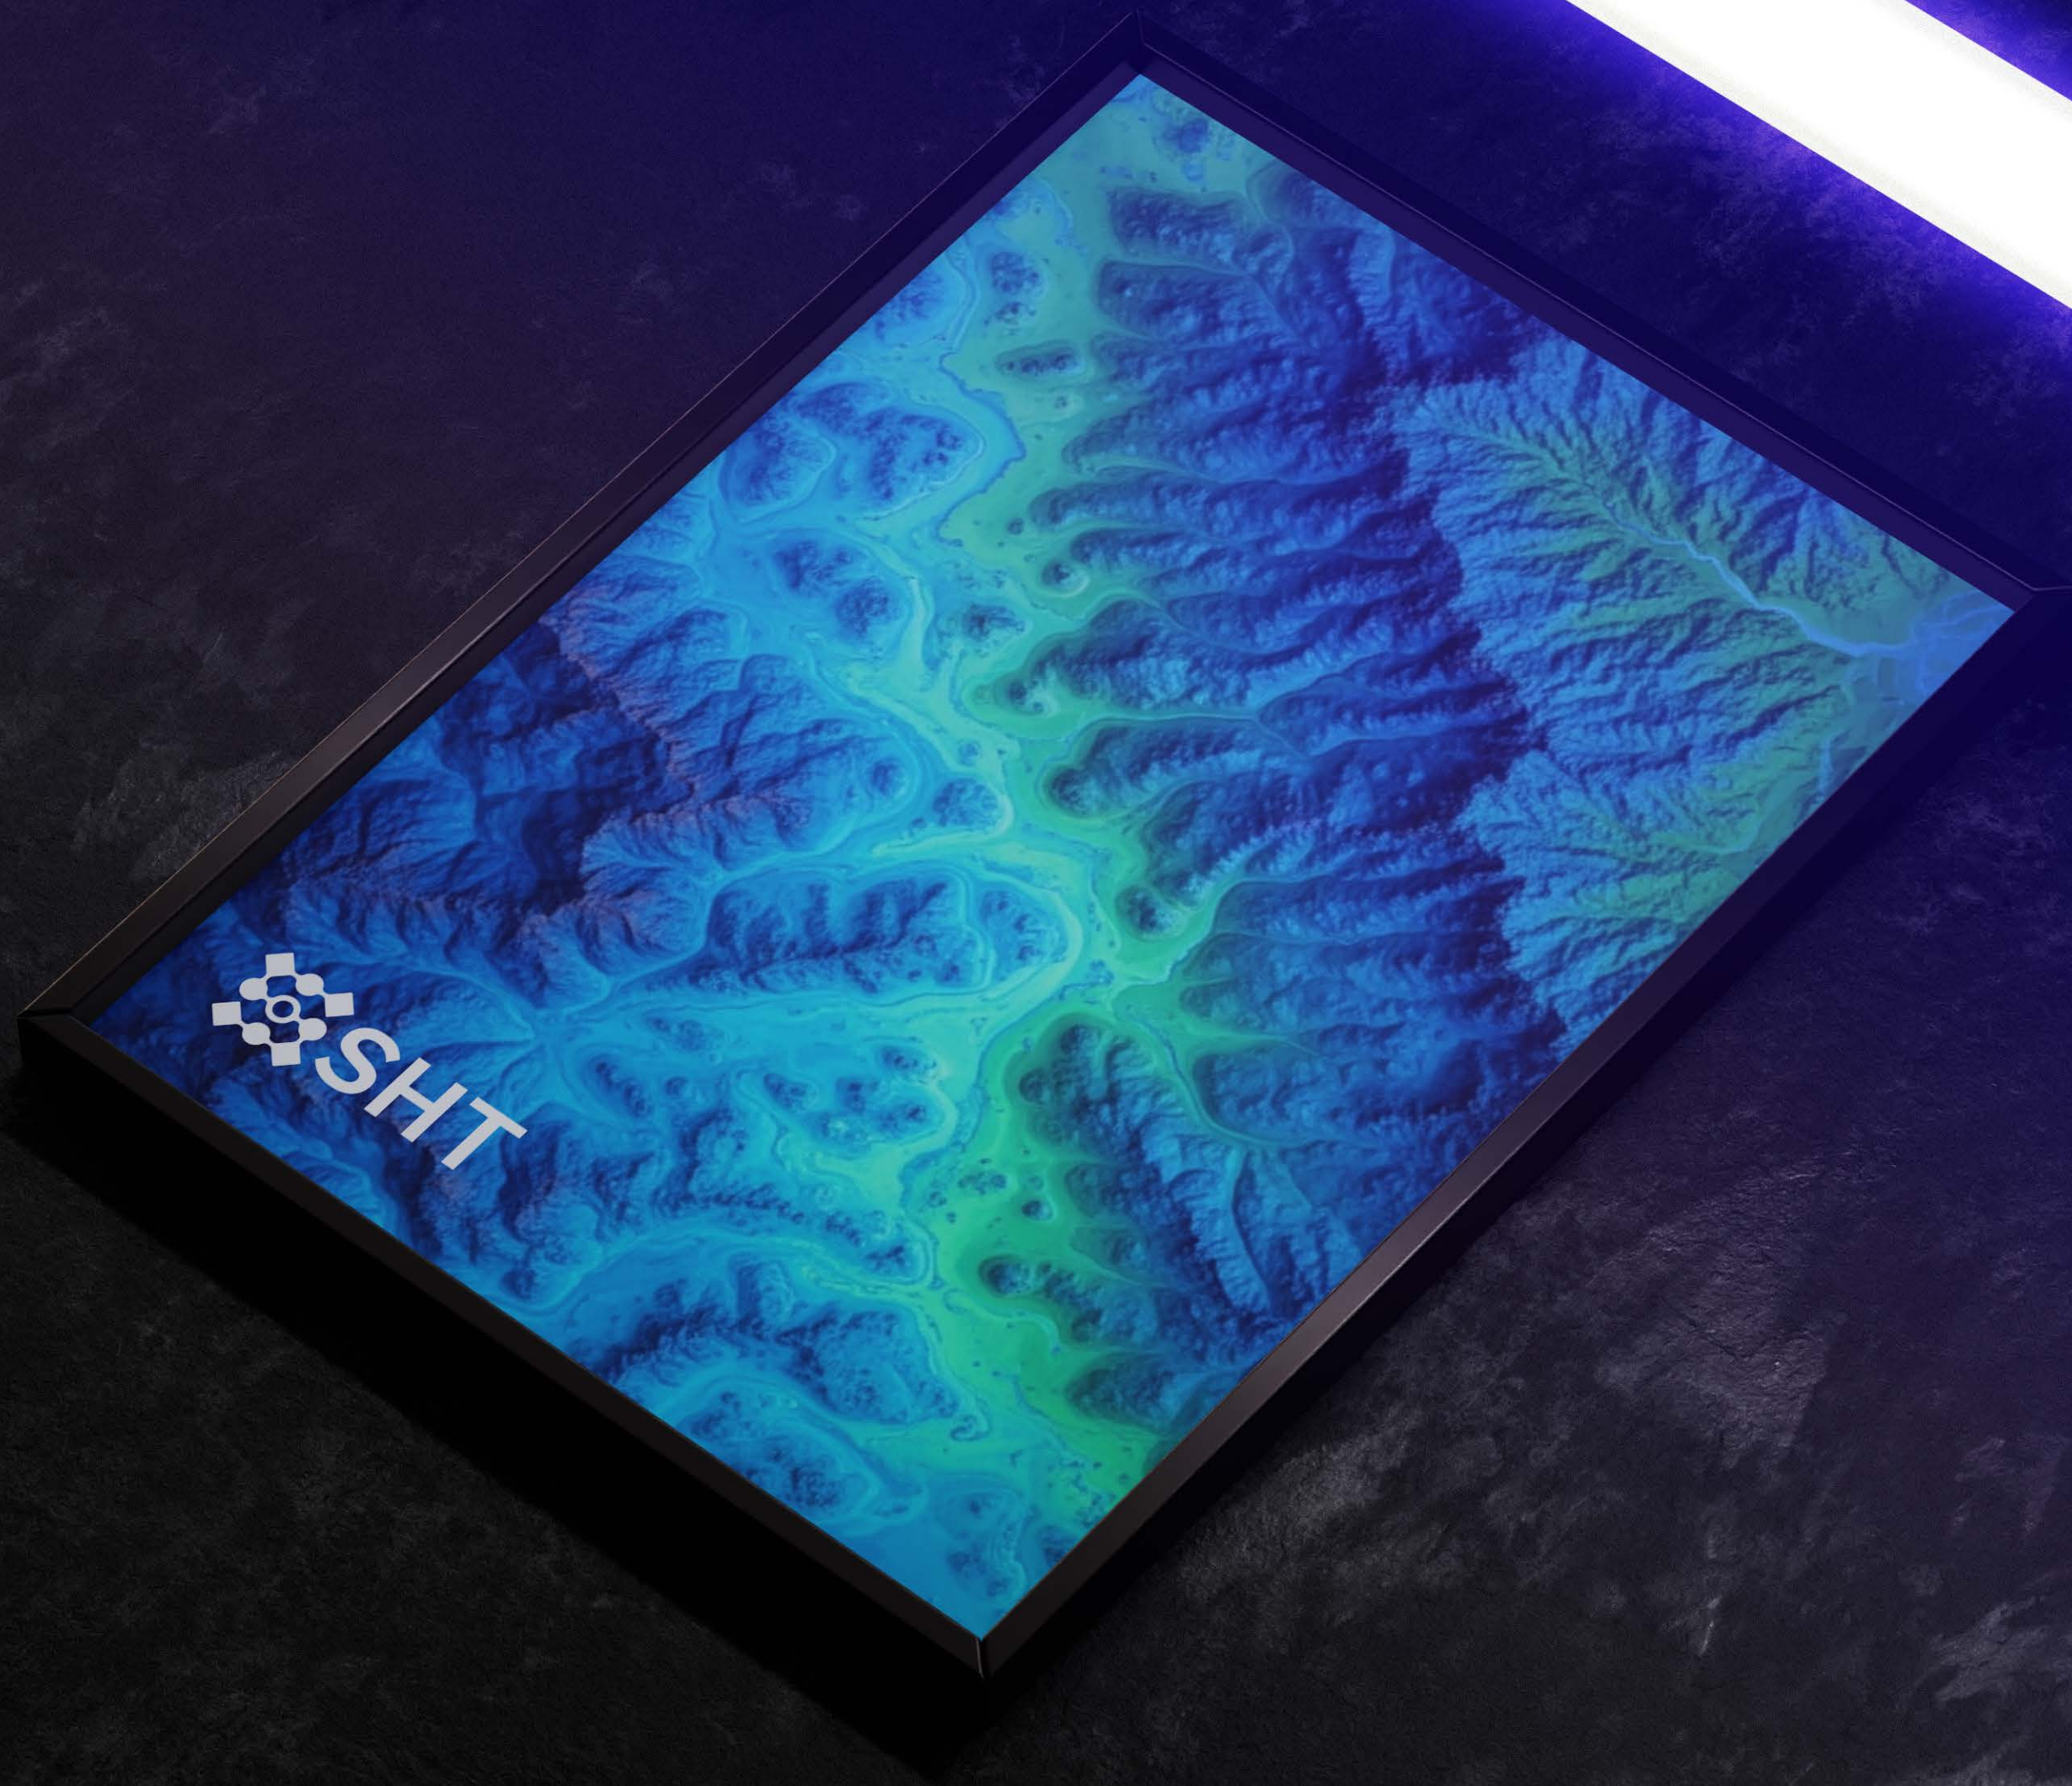

Do not change alter the arrangement of the logo for any reason

The background features a dark blue field with a pattern of lighter blue and teal geometric shapes. These shapes include circles, squares, and interconnected lines, creating a network-like or molecular structure. The shapes are distributed across the entire frame, with some appearing more prominent than others.

Applications

 SHT

A vertical digital display stands in a dark, reflective environment. The screen shows a blue molecular graphic at the top, followed by the text 'Innovation Driven by Location Intelligence' in white. At the bottom, the Spatial Height Technologies logo and website are visible. The blue light from the screen reflects on the dark floor.
